SUMMARY

Passionate full-stack software developer with an enduring love for programming. Recently graduated from an intensive, six-month boot camp specializing in full-stack development. Proficient in multiple programming languages and adept at both front-end and back-end development. Eager to remain abreast of the latest technological innovations and eager to tackle new challenges. Enthusiastic about refining skills continuously and making meaningful contributions as a junior developer in the ever-evolving tech landscape.

EXPERIENCE

Full Stack Software Developer Graduate

Boolean UK

📅 08/2023 - 03/2024 📍 United Kingdom

- Completed an intensive and comprehensive full time 6 months software development training of over 1000 hours, gaining a solid foundation in technical skills.
- Learned the fundamentals of full-stack web development through curated exercises and daily mentoring.
- Gained experience with modern web development technologies such as JavaScript, React, Prisma, PostgreSQL and Node.js.
- Worked collaboratively on real-world projects, improving problem-solving and teamwork abilities.
- Worked collaboratively in a team development simulation exercise for 4 weeks. This was a cohort management application where I had the chance to work on both the front-end and back-end, adding new features by opening and closing tickets within GitHub.
- Learned industry best practices and coding standards, enhancing code quality and maintainability.
